Security Findings

Severity	Type	Description
CRITICAL	Unconstrained Delegation	KINGSLANDING.NORTH.SEVENKINGDOMS.LOCAL has unconstrained delegation
MEDIUM	Excessive Domain Admin Membership	Domain Admins group has 5 members — should be minimal

Recommendations

1. Disable unconstrained delegation on all non-DC machines. Use constrained delegation or resource-based constrained delegation instead.
2. Reduce Domain Admin membership to the minimum required. Use tiered administration and just-in-time privileged access.
